

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

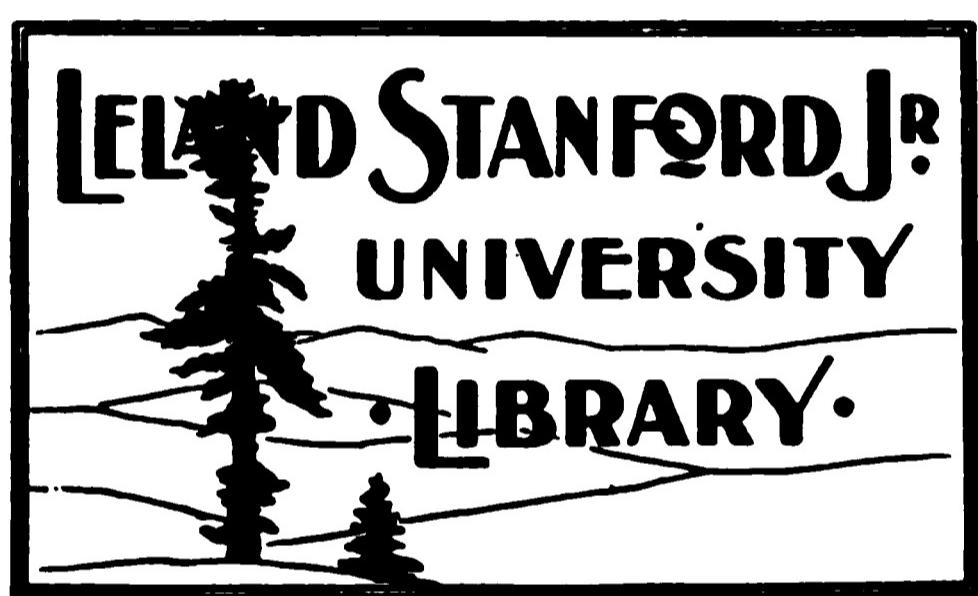

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

## PREFACE.

THE ten parts which this volume comprises have already been issued separately, and now appear in a collective form with a General Index. Since the publication of the various parts the information contained in them has been subjected to careful revision, and in some cases the tables have been entirely recast. It is possible, however, that some errors may still remain uncorrected ; if there be any such which come under attention information concerning their nature and position would be gladly received.

J. P. T. : :

The following pages contain chiefly matter in a tabular form, and should therefore be read in conjunction with the "Wealth and Progress of New South Wales," an annual publication, based for the most part on the figures found in this volume, and designed, as its title shows, to illustrate the resources of this Colony.

## LOCAL OPTION VOTE.

593

### No. 41.—LOCAL OPTION Vote, taken February, 1894.

**Local Option.**—Under the provisions of the Licensing Act of 1882 (45 Vic. No. 16), as amended by the Licensing Act of 1888 (46 Vic. No. 24), a local option vote is taken every three years in every Municipality, or Ward of a Municipality, at the election for Aldermen, in which the ratepayers may vote either "Yes" or "No" on two questions:—1. Whether any new publicans' licenses shall be granted during the ensuing three years in that Municipality or Ward; and 2. Whether any renewals of publicans' licenses shall be allowed within the same period. It is necessary that there shall be a majority of over eleven-twentieths of the votes polled to make the vote operative in the negative. At the polls that have hitherto been taken only a small proportion of the voters have exercised their local option vote. Although the local option vote is taken once in three years in every Municipality or Ward of a Municipality, the year when it is taken is not the same at all. The following table shows those Municipalities and Wards where the vote was taken in 1894.—

## DISTRICT

## No. 47.—DISTRICT COURTS—Nature of Causes, 1893.

**District Courts.**—The Colony is divided for District Court purposes into six districts, and the Courts are presided over by Judges appointed by the Governor, with the advice of the Executive Council, upon the recommendation of the Minister of Justice. They are held at least twice during the year, at the places directed by the Governor-in-Council, on dates appointed by the Judges of the respective districts. The jurisdiction of these Courts is purely civil, and is quite distinct from that exercised by the District Court Judges when acting as Chairmen of Quarter Sessions. District Courts have no jurisdiction in actions where the amount claimed exceeds £200, or where the title of land or the validity of any devise, bequest, or limitation under a will or settlement, shall be in question, nor in actions for seduction; but they are empowered (37 Vic. No. 13) to hear appeals from decisions in Mining Wardens' Courts.

No. 64.—The Trades Disputes Conciliation and Arbitration Act, 1892  
(Act 55 Vic. No. 29).

THIS ACT was the outcome of an inquiry into the subject of industrial crises or strikes by a Royal Commission appointed November, 1890. It supplies State machinery for the settlement of industrial disputes upon the basis of conciliation or compromise, in the first instance, and failing that by arbitration. Under this Act the Colony is treated as one Industrial District, and two separate Councils, the Council of Conciliation and the Council of Arbitration, have been appointed, the former consisting of eighteen and the latter of three members, who hold office for a term of two years, but can be reappointed. Nine members of the Council of Conciliation and one member of the Council of Arbitration are elected by the organisations, or a majority of the organisations, representing the interests of employers, and the organisations, or the majority of the organisations, representing the employés, elect a similar number. The President of the Council of Arbitration is appointed by the Governor and Executive Council on the recommendation of the other two members. The members of the Council of Arbitration receive salaries in addition to fees, but the members of the Council of Conciliation are paid by fees only. The Act continues in force for four years from 31st March, 1892, and its regulations are carried out by an officer designated the Clerk of Awards. Both Councils are invested with judicial powers to enforce the attendance of witnesses. Since the Act came into operation, only one case has been brought before the Council of Conciliation, and one case before the Court of Arbitration.

PRESBYTERIAN CHURCH OF NEW SOUTH WALES—*continued.*

**Church Property.**—A Church Trusts Bill has been passed by a majority of Presbyteries and by two Assemblies. The requisite notice has been given for the introduction of a measure of such a character into Parliament, under which the holding and dealing with properties belonging to the Presbyterian Church of New South Wales will be regulated. The Church Property Law and Documents Committee, appointed by the General Assembly, keeps a Register of all Church properties and causes Trustees to be gazetted. In 1893 the numbers of properties and Trustees so gazetted were 55 and 225 respectively. The value of Church Property given in the adjoining table is only approximate, the returns forwarded by many charges being incomplete:—

## WESLEYAN

## No. 28. PUBLIC WORSHIP—Special Returns, 1893.

## WESLEYAN METHODIST CHURCH.

**Constitution.**—A separate and independent constitution was given to the Wesleyan Methodists in Australia in 1864 by the English Conference, which derives its constitution from a Deed Poll of 29th February, 1784, executed and enrolled in the High Court of Chancery in England.

**Annual and General Conferences.**—The government of the Wesleyan Methodist Church in New South Wales is vested in the Annual Conference of clerical and lay representatives under the chairmanship of a President elected from its members. Representatives are appointed from the Annual Conference to the General Conference, which assembles once in three years, or at other intervals, as may be arranged. The subject of the organic union of the Methodist Churches of Australia has received much consideration from the Conference. At the General Conference held at Adelaide, May, 1884, resolutions were passed reaffirming the desirability of union with other branches of Methodism separated at present by differences in ecclesiastical order, and for the establishment of a Federal Council of Methodist Churches as a step to organic union.

## No. 24.—Metropolitan Fire Brigade and Volunteer Companies.

Operations, 1893.

**Fire Alarm Telephones.**—Telephones connected with the fire stations are placed in fire-alarm boxes in all the important localities of the city and suburbs. The telephonic system at the end of 1892 comprised 52 telephones erected, 7 telephone switchboards, and 37 telephone fire alarms. Most of the volunteer fire stations, theatres, music halls, &c., are also in direct communication with the permanent stations. The various police stations are also in communication through the Central Police Station. Those public offices, wharfs, business firms, &c., that are connected with the General Post Office Exchange, can transmit calls for fires at any hour of the day or night, and arrangements have been made for the watchmen employed by the principal business houses to report to the head-quarters station several times every night.

\* Outside the jurisdiction of the Board.

## FIRE INQUESTS.

## No. 28.—INQUESTS ON FIRES, 1893.

**Inquests on Fires.**—Act 26 Vic. No. 10 provides that “when any property, real or personal, shall be destroyed or damaged by fire, the Coroner having or exercising jurisdiction at or in the place where such fire shall have happened, shall, if he consider it a fit case for so doing, make an inquisition into the cause and origin of such fire.” Jurors and witnesses are summoned, and the mode of procedure is the same as in inquests in cases of deaths. The Coroner can, if the jury find that any person has wilfully set fire to property, exercise the same authority as in the cases of persons charged with murder or manslaughter. There is a Coroner and a Deputy Coroner for Sydney, and 131 Coroners for County Districts, as well as two for the Colony generally. (See also Notes, Part VII, “Population and Vital Statistics,” and Part VIII, “Law and Crime.”)

The Sydney Observatory was established in 1856, at the instance of the Governor, Sir William Denison.  
Time Ball.—The Time Ball at the Sydney Observatory is dropped every day at 1 p.m. Observatory Mean Time, or 14h. 55m. 9s. Greenwich Mean Time. Should any error occur in the time of dropping the Ball, it is immediately raised half-mast high, and notice of the amount of error is given in the newspapers of the following day.
